Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of Parchment School District (the "School District"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Parchment School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of Parchment School District as of June 30, 2016, and the respective changes in its financial position for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

To the Board of Directors
Parchment School District

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, the schedule of the School District's proportionate share of the net pension liability MPSERS for the last 10 fiscal years, and the schedule of the School District's contributions to MPSERS over the last 10 fiscal years, as disclosed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Parchment School District's basic financial statements. The other supplemental information, as identified in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The nonmajor governmental funds combining balance sheet, combining statement of revenue, expenditures, and changes in fund balance, and the schedule of bonded indebtedness are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the nonmajor governmental funds combining balance sheet, combining statement of revenue, expenditures, and changes in fund balance, and the schedule of bonded indebtedness are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Directors
Parchment School District

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 19, 2016 on our consideration of Parchment School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Parchment School District's internal control over financial reporting and compliance.

Parchment School District

Management's Discussion and Analysis

This section of Parchment School District's (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2016. Please read it in conjunction with the School District's financial statements, which immediately follow this section 9.

Using this Annual Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Parchment School District financially as a whole. The district-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements look at the School District's operations in more detail than the district-wide financial statements by providing information about the School District's most significant fund - the General Fund - with all other funds presented in one column as nonmajor funds. The remaining statement, the statement of fiduciary net position, presents financial information about activities for which the School District acts solely as an agent for the benefit of students and parents.

Reporting the School District as a Whole - District-wide Financial Statements

One of the most important questions asked about the School District is "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

Parchment School District

Management's Discussion and Analysis (Continued)

These two statements report the School District's net position - the difference between assets and liabilities, as reported in the statement of net position - as one way to measure the School District's financial health or financial position. Over time, increases or decreases in the School District's net position - as reported in the statement of activities - are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and food services. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Most Significant Funds - Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds - not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Food Service Fund is an example) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental Funds - All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

The School District as Trustee - Reporting the School District's Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District's fiduciary activities are reported in a separate statement of fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Parchment School District

Management's Discussion and Analysis (Continued)

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. Table I provides a summary of the School District's net position as of June 30, 2016 and 2015:

TABLE I	Governmental Activities	
	June 30	
	2016	2015
	(in millions)	
Assets		
Current and other assets	\$ 5.5	\$ 5.7
Capital assets	<u>34.8</u>	<u>34.5</u>
Total assets	40.3	40.2
Deferred Outflows of Resources		
Deferred charges on bond refunding	0.9	0.1
Deferred outflows related to pensions	<u>2.8</u>	<u>1.3</u>
Total deferred outflows of resources	3.7	1.4
Total assets and deferred outflows of resources	44.0	41.6
Liabilities		
Current liabilities	5.6	4.9
Long-term liabilities	36.3	36.2
Net pension liability	<u>22.5</u>	<u>19.9</u>

Restricted	0.4	0.1
Unrestricted	<u>(19.3)</u>	<u>(19.4)</u>
Total net assets	<u>\$ (21.1)</u>	<u>\$ (20.8)</u>

Parchment School District

Management's Discussion and Analysis (Continued)

The above analysis focuses on the net position (see Table 1). The change in net position of the School District's governmental activities is discussed below (see Table 2). The School District's net deficit was \$21.1 million at June 30, 2016. Net investment in capital assets, totaling (\$2.2 million), compares the original cost less depreciation of the School District's capital assets to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limits the School District's ability to use that net position for day-to-day operations.

The \$21.1 net deficit represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net position from year to year. Without GASB No. 68, total net deficit would be \$0.7 million. This balance enables the School District to meet working capital and cash flow requirements as well as to provide for future uncertainties. The operating results of the General Fund will have an impact on the change in unrestricted net position from year to year.

The results of this year's operations for the School District as a whole are reported in the statement of activities, which shows the changes in net position for fiscal years 2016 and 2015 (see Table 2).

Parchment School District

Management's Discussion and Analysis (Continued)

TABLE 2

	Governmental Activities	
	2016	2015
	(in millions)	
Revenue		
Program revenue:		
Charges for services	\$ 0.7	\$ 0.8
Operating grants and contributions	4.7	4.7
General revenue:		
Property taxes	2.9	2.5
State foundation allowance	11.0	11.1
Other	0.3	-
Total revenue	<u>19.6</u>	<u>19.1</u>
Functions/Program Expenses		
Instruction	9.3	9.2
Support services	6.7	6.5
Athletics	0.3	0.3
Food services	0.8	0.8
Community services	0.4	0.4
Interest on long-term debt	1.0	1.5
Debt issuance costs	0.3	-
Depreciaton (unallocated)	1.1	1.1
Total functions/program expenses	<u>19.9</u>	<u>19.8</u>
Decrease in Net Assets	(0.3)	(0.7)
Net Assets - Beginning of year	<u>(20.8)</u>	<u>(20.0)</u>
Net Assets - End of year	<u><u>\$ (21.1)</u></u>	<u><u>\$ (20.7)</u></u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$19.9 million. Certain activities were fully funded from those who benefited from the programs (\$0.7 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$4.7 million). We paid for the remaining "public benefit" portion of our governmental activities with \$2.9 million in taxes, \$11.0 million in state foundation allowance, and with our other revenue (i.e., interest and general entitlements).

Parchment School District

Management's Discussion and Analysis (Continued)

The School District experienced a decrease in net position. The key reasons for the decrease in net position were caused by the School District's desire to continue current educational programming levels in an ongoing effort to improve student achievement while costs have gone up. This educational programming required an increase in expenses, while the revenue sources increased at a lower level. Declining enrollment was also a factor.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of School District operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed the year, the governmental funds reported a combined fund balance of \$2.1 million, which is a decrease of approximately \$169,000 from last year. The primary reasons for the decrease are as follows:

- The Qualified Zone Academy Bond (QZAB) was issued and approved by the Board of Education to maintain and improve our School District's facilities by taking advantage of new technologies and capabilities in energy savings features, which caused an increase in fund balance in the prior year, although the funds were spent down in the current year.
- In the General Fund, our principal operating fund, the fund balance decreased approximately \$184,000 to approximately \$1.3 million. The change is mainly due to rising educational costs while revenue has risen at a lower rate. The General Fund fund balance is available to fund costs related to allowable school operating purposes.

Combined, the debt service funds showed a fund balance increase of approximately \$428,000 from the prior year. This was due in part to the 2016 Series A and 2016 Series B bond refundings that were issued in the current year. In addition, millage rates were increased to comply with new legislative mandates in order to adjust the debt service funds balances and reduce utilization of the School Loan Revolving Fund. Millage rates are determined annually to ensure that the School District accumulates sufficient resources to pay annual bond issue related debt service. Debt service funds fund balances are reserved since they can only be used to pay debt service obligations.

The Capital Projects Fund balance (including the Capital Improvement Fund and the QZAB Capital Projects Fund) decreased approximately \$427,000 as the School District's capital improvement plan was implemented to maintain present facilities needs and planned projects and QZAB project was completed.

Parchment School District

Management's Discussion and Analysis (Continued)

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unplanned changes in programming, revenue, and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted just before year end. A schedule showing the School District's original and final budget amounts, compared with amounts actually paid and received, is provided in required supplemental information in these financial statements.

Revisions made to the 2015-2016 General Fund original budget included a slight increase in all revenue. Budgeted expenditures were increased slightly due to planned facility operations and management.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2016, the School District had approximately \$34.8 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, and equipment, net of depreciation. This amount represents a net increase (including additions, disposals, and depreciation) of approximately \$274,000, or 0.8 percent, from last year.

	<u>2016</u>	<u>2015</u>
Land	\$ 166,778	\$ 166,778
Buildings and building improvements	46,073,531	45,558,228
Buses and other vehicles	1,223,629	1,191,626
Furniture and equipment	<u>6,289,716</u>	<u>6,521,534</u>
Total capital assets	53,753,654	53,438,166
Less accumulated depreciation	<u>(19,001,737)</u>	<u>(18,960,153)</u>
Net capital assets	<u>\$ 34,751,917</u>	<u>\$ 34,478,013</u>

We anticipate capital additions for the 2016-2017 fiscal year will be lower than the 2015-2016 fiscal year. We present more detailed information about our capital assets in the notes to the financial statements.

Parchment School District

Management's Discussion and Analysis (Continued)

Debt

At the end of this year, the School District had \$36.3 million in bonds outstanding versus \$31.4 million in the previous year - a change of 15.6 percent. These bonds and other long-term liabilities consisted of the following:

	<u>2016</u>	<u>2015</u>
General obligation bonds	\$ 36,315,000	\$ 31,360,000
Premium on bonds	761,711	283,667
School loan revolving fund	286,638	5,362,455
Other obligations	<u>920,942</u>	<u>441,563</u>
Total	<u>\$ 38,284,291</u>	<u>\$ 37,447,685</u>

The School District announced the successful sale of its 2016 Refunding Bonds, Series A in the amount of \$19,780,000 and 2016 Refunding Bonds, Series B in the amount of \$5,590,000. The Series A Bonds were issued for the purpose of refunding the School District's outstanding 2005 Refunding Bonds and the 2007 School Building and Site Bonds, and the Series B Bonds were issued for the purpose of refunding the School District's outstanding School Loan Revolving Fund debt; and to pay the costs of issuing the bonds.

The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues "qualified debt," i.e., debt backed by the State of Michigan, such obligations are not subject to this debt limit. The School District's outstanding unqualified general obligation debt is significantly below this statutorily imposed limit.

Other obligations include capital lease and vacation pay and sick leave. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Parchment School District

Management's Discussion and Analysis (Continued)

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2016-2017 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2017 fiscal year is 10 percent and 90 percent of the February 2016 and October 2016 student counts, respectively. The 2016-2017 budget was adopted in June 2016, based on an estimate of students that will be enrolled in October 2016. Approximately 82 percent of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot assess additional property tax revenue for general operations. As a result, School District funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2016-2017 school year, we anticipate that the fall student count will be slightly lower compared to the estimates used in creating the 2016-2017 budget. Once the final student count and related per-pupil funding are validated, state law requires the School District to amend the budget if actual School District resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to school districts.

Governmental Funds Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Position Year Ended June 30, 2016

Fund Balance Reported in Governmental Funds \$ 2,072,079

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and are not reported in the funds:

Cost of capital assets	\$ 53,753,654	
Accumulated depreciation	<u>(19,001,737)</u>	34,751,917

Grants and other receivables that are collected after year end, such that they are not available to pay bills outstanding as of year end, are not recognized in the funds	32,887
---	--------

Deferred outflows related to pension payments made subsequent to the measurement date	1,788,194
---	-----------

Long-term liabilities are not due and payable in the current period and are not reported in the governmental funds:

Bonds, note payable, and capital lease payable, including premiums, deferred charges, and school bond loan fund principal and accrued interest	\$ (37,874,291)	
Compensated absences	<u>(410,000)</u>	(38,284,291)

Accrued interest payable is not included as a liability in governmental funds	(212,090)
---	-----------

Deferred charges on bond refunding	924,446
------------------------------------	---------

Deferred outflow related to pensions	1,016,486
--------------------------------------	-----------

Net pension obligations do not present a claim on current financial resources and are not reported as fund liabilities	(22,501,121)
--	--------------

Deferred inflows related to pension investment returns and changes in assumptions are not reported in the governmental funds	<u>(694,333)</u>
--	------------------

Net Position of Governmental Activities **\$ (21,105,826)**

Notes to Financial Statements June 30, 2016

Note I - Summary of Significant Accounting Policies

The accounting policies of Parchment School District (the "School District") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity, and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

District-wide and Fund Financial Statements

The district-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. All of the School District's government-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenue are reported instead as general revenue.

Separate financial statements are provided for governmental and fiduciary funds, even though the latter are excluded from the district-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Parchment School District

Notes to Financial Statements June 30, 2016

Note I - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

District-wide Financial Statements - The district-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance are available, the School District's policy is to first apply restricted resources. When an expense is incurred for purposes which amounts in any of the unrestricted fund balance classifications could be used, it is the School District's policy to spend funds in this order: committed, assigned, and unassigned.

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid.

Fund Financial Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. Revenue not meeting this definition is classified as a deferred inflow of resources. For this purpose, the School District considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state aid, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the School District.

Parchment School District

Notes to Financial Statements June 30, 2016

Note I - Summary of Significant Accounting Policies (Continued)

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting.

The School District reports the following major governmental fund:

General Fund - The General Fund is the School District's primary operating fund. It accounts for all financial resources of the School District, except those required to be accounted for in another fund.

Additionally, the School District reports the following fund types:

Capital Improvement Fund - The Capital Improvement Fund is used to account for proceeds of specifically designated resources for construction of major capital projects extending beyond one year. The fund is retained until the purpose for which the fund was created has been accomplished.

Qualified Zone Academy Bond Capital Project Fund - The Qualified Zone Academy Bond Fund (QZAB) fund is used to record revenue from bond issuance and disbursement of invoices specifically designated to maintain and improve the School District's facilities with new technologies and capabilities in energy savings.

Special Revenue Fund - The special revenue fund is used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. The School District's special revenue fund includes the Food Service Fund. Revenue sources for the Food Service Fund include sales to customers and dedicated grants from state and federal sources. Any operating deficit generated by this fund's activities is the responsibility of the General Fund.

Debt Service Funds - The 1998 Series Debt Service Fund, 2005 Series Debt Service Fund, 2007 Series Debt Service Fund, 2016 Series Debt Service Fund, and QZAB Debt Service Fund are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on the respective bond issues.

Agency Fund - The School District presently maintains an agency fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and held in trust for the students. The fund is custodial in nature and does not involve measurement of results of operations.

Assets, Liabilities, and Net Position or Equity

Cash - Cash include cash on hand, demand deposits, and cash management funds.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "advances to/from other funds."

Parchment School District

Notes to Financial Statements June 30, 2016

Note 1 - Summary of Significant Accounting Policies (Continued)

All accounts and property tax receivables are shown net of an allowance for uncollectible amounts. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes become a lien on December 1 of the following year. These taxes are billed on July 1 for approximately 50 percent of the taxes and on December 1 for the remainder of the property taxes. Taxes are considered delinquent on March 1 of the following year. At this time, penalties and interest are assessed and the total obligation is added to the county tax rolls.

Inventories and Prepaid Costs - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed. United States Department of Agriculture Commodities inventory received by the Food Service Fund is recorded as inventory until used. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

Restricted Assets - The unspent property tax revenue and related interest of the debt service funds require amounts to be set aside for future bond payments. These amounts have been classified as restricted assets.

Capital Assets - Capital assets, which include land, buildings, equipment, and vehicles, are reported in the district-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$10,000, or the State of Michigan's bid threshold for related items purchased in a group, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The School District does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	20 to 50 years
Land improvements	10 to 20 years
Buses and other vehicles	5 to 10 years
Furniture and other equipment	5 to 10 years

Note I - Summary of Significant Accounting Policies (Continued)

Compensated Absences (Vacation and Sick Leave) - The liability for compensated absences reported in the district-wide statements consists of earned but unused accumulated vacation and sick leave benefits. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method, in which leave amounts for both employees who are currently eligible to receive termination payments at normal retirement age and other employees who are expected to become eligible in the future to receive such payments upon normal retirement are included.

Long-term Obligations - In the district-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the lives of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures. In the case of a debt defeasance, the difference between amounts transferred to the bond escrow agent and the principal balance of debt defeased is reported as deferred charges in the district-wide financial statements and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period.

The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenditure) until then. The School District has two items that qualify for reporting in this category. One is the deferred outflow related to the pension plan in the government-wide statement of net position. The other item is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Parchment School District

Notes to Financial Statements June 30, 2016

Note I - Summary of Significant Accounting Policies (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School District has three types of these items. The first item arises only under a modified accrual basis of accounting, and is therefore only reported in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes that are not collected during the period of availability. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second and third items arise only under a full accrual basis of accounting, and therefore are only reported in the government-wide statement of net position. Deferred inflows at June 30, 2016 under the full accrual basis of accounting include \$618,235 for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date and \$76,098 related to the pension plan described in Note 10.

Fund Balance - Fund balance classifications comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. Under this standard, the fund balance classifications are comprised of the following - nonspendable, restricted, committed, assigned, and unassigned.

- **Nonspendable:** Amounts that are not in spendable form or are legally or contractually required to be maintained intact
- **Restricted:** Amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose
- **Committed:** Amounts that have been formally set aside by the Board of Education for use for specific purposes. Commitments are made and can be rescinded only via resolution of the Board of Education.
- **Assigned:** Intent to spend resources on specific purposes expressed by the Board of Education, superintendent, or assistant superintendent, who are authorized by resolution approved by the Board of Education to make assignments
- **Unassigned:** Amounts that do not fall into any other category above. This is the residual classification for amounts in the General Fund and represents fund balance that has not been assigned to other funds and has not been restricted, committed, or assigned to specific purposes in the General Fund. In other governmental funds, only negative unassigned amounts are reported, if any, and represent expenditures incurred for specific purposes exceeding the amounts previously restricted, committed, or assigned to those purposes.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 1 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Comparative Data/Reclassifications - Comparative data is not included in the School District's financial statements.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees Retirement System (MPERS), and additions to/deductions from MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. MPERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

Note 2 - Stewardship, Compliance, and Accountability

Budgetary Information - Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund, special revenue funds, and debt retirement funds, except that capital outlay costs and capital lease costs are budgeted by function. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The budget categories are different from the basic financial statements due to capital outlay being budgeted functionally. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the functional level. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. The School District changed budgeted amounts during the year in response to more accurate state aid information.

Excess of Expenditures Over Appropriations in Budgeted Funds - The School District did not have significant expenditure budget variances.

Note 3 - Deposits and Investments

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated two banks for the deposit of its funds.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a deposit policy for custodial credit risk. At year end, the School District's deposit balance of \$2,880,214 had \$2,598,146 of bank deposits (checking accounts) that were uninsured and uncollateralized. The School District evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk of Investments - Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk. At June 30, 2016, the School District had no U.S. agency notes which were uninsured and unregistered and held by a counterparty.

Interest Rate Risk - Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. The School District's policy does not address ways to minimize interest rate risk. The School District currently holds no investments subject to interest rate risk.

Credit Risk - State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 4 - Receivables and Unavailable/Unearned Revenue

Receivables as of year end for the School District's individual major fund and the nonmajor funds consist of the following:

	<u>General Fund</u>	<u>Nonmajor Funds</u>	<u>Total</u>	<u>Agency Fund</u>
Receivables:				
Due from other governmental units	\$ 2,568,316	\$ 4,634	\$ 2,572,950	\$ -
Other receivables	<u>69,543</u>	<u>-</u>	<u>69,543</u>	<u>2,969</u>
Total receivables	<u>\$ 2,637,859</u>	<u>\$ 4,634</u>	<u>\$ 2,642,493</u>	<u>\$ 2,969</u>

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of unearned and unavailable revenue are as follows:

	<u>Governmental Funds</u>	
	<u>Deferred Inflow - Unavailable</u>	<u>Liability - Unearned</u>
Grant funds earned but not received within 60 days after year end	\$ 32,887	\$ -

Parchment School District

Notes to Financial Statements June 30, 2016

Note 5 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

Governmental Activities	Balance July 1, 2015	Additions/ Transfers	Disposals/ Transfers	Balance June 30, 2016
Capital assets not being depreciated -				
Land	\$ 166,778	\$ -	\$ -	\$ 166,778
Capital assets being depreciated:				
Buildings and improvements	45,558,228	515,303	-	46,073,531
Furniture and equipment	6,521,534	193,424	425,242	6,289,716
Buses and other vehicles	1,191,626	912,718	880,715	1,223,629
Subtotal	53,271,388	1,621,445	1,305,957	53,586,876
Accumulated depreciation:				
Buildings and improvements	12,762,989	744,601	-	13,507,590
Furniture and equipment	5,110,200	221,348	425,242	4,906,306
Buses and other vehicles	1,086,964	154,673	653,796	587,841
Subtotal	18,960,153	1,120,622	1,079,038	19,001,737
Net capital assets being depreciated	34,311,235	500,823	226,919	34,585,139
Net capital assets	\$ 34,478,013	\$ 500,823	\$ 226,919	\$ 34,751,917

Depreciation expense of \$1,120,622 was not charged to activities as the School District considers its assets to impact multiple activities and allocation is not practical.

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From		
	General Fund	Nonmajor Governmental Funds	Total
General Fund	\$ -	\$ 52,359	\$ 52,359
Agency Fund	14,417	-	14,417
Nonmajor governmental funds	454,849	80,551	535,400
Total	\$ 469,266	\$ 132,910	\$ 602,176

Parchment School District

Notes to Financial Statements June 30, 2016

Note 6 - Interfund Receivables, Payables, and Transfers (Continued)

Interfund balances represent routine and temporary cash flow assistance until amounts are transferred from cash accounts.

Interfund transfers reported in the fund financial statements are comprised of the following:

Fund Transferred To	Fund Transferred From	
	General Fund	Nonmajor Governmental Funds
General Fund	\$ -	\$ 10,000
Nonmajor governmental funds	422,000	80,551
Total	<u>\$ 422,000</u>	<u>\$ 90,551</u>

Interfund transfers from the General Fund are to provide support to the Capital Improvement Fund and the QZAB Debt Service Fund.

Interfund reimbursement transfers were made from the Food Service Fund to the General Fund in the amount of \$10,000 to reimburse the General Fund for indirect costs related to the food service activities.

In addition, interfund transfer from the 2005 Debt Service Fund to the 2016 Debt Service Fund was used for the 2016 bond refunding during the current year, as discussed further in Note 7.

Note 7 - Long-term Debt

The School District issues bonds, notes, and other contractual commitments to provide for the acquisition and construction of major capital facilities and the acquisition of certain equipment. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. Qualified bonds are fully guaranteed by the State of Michigan. Capital lease and installment purchase agreements are also general obligations of the School District. Other long-term obligations include compensated absences and other termination benefits.

Notes to Financial Statements June 30, 2016

Note 7 - Long-term Debt (Continued)

Long-term debt activity can be summarized as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental Activities					
Bonds	\$ 31,360,000	\$ 25,370,000	\$ 20,415,000	\$ 36,315,000	\$ 1,875,000
Issuance premiums	283,667	771,353	293,309	761,711	38,568
Total bonds payable	31,643,667	26,141,353	20,708,309	37,076,711	1,913,568
Capital Lease Payable	26,563	-	15,621	10,942	10,942
2015 Installment Purchase Agreement	-	500,000	-	500,000	96,098
School Loan Revolving Fund	4,818,923	284,166	4,818,303	284,786	-
School Loan Revolving Fund Accrued Interest	543,532	149,017	690,697	1,852	-
Employee compensated absences	415,000	-	5,000	410,000	-
Total governmental activities	<u>\$ 37,447,685</u>	<u>\$ 27,074,536</u>	<u>\$ 26,237,930</u>	<u>\$ 38,284,291</u>	<u>\$ 2,020,608</u>

Total interest expense for the year was approximately \$887,000. Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

<u>Years Ending June 30</u>	<u>Governmental Activities</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 1,971,098	\$ 2,066,768	\$ 4,037,866
2018	2,058,011	1,196,720	3,254,731
2019	2,124,961	1,130,769	3,255,730
2020	2,206,951	1,046,250	3,253,201
2021	2,298,979	956,848	3,255,827
2022-2026	10,740,000	3,270,370	14,010,370
2027-2031	8,500,000	1,629,105	10,129,105
2032-2036	6,915,000	693,748	7,608,748
Total	<u>\$ 36,815,000</u>	<u>\$ 11,990,578</u>	<u>\$ 48,805,578</u>

Parchment School District

Notes to Financial Statements June 30, 2016

Note 7 - Long-term Debt (Continued)

Governmental Activities

General obligation bonds consist of the following:

\$19,130,000 serial bonds due in annual installments of \$1,130,000 from May 1, 2019 through May 1, 2036; interest ranging from 5.00 to 5.15 percent	\$ 7,910,000
\$17,770,000 serial bonds substantially refunded during May 2016. Final installment of \$200,000 due May 1, 2017 with interest bearing at 4.00 percent	200,000
\$2,385,000 Qualified Zone Academy Bonds; interest is not charged on the bond; annual escrow deposits of \$189,900 are required to be placed into a restricted cash account starting September 2015 until September 2029, at which point a principal payment of \$2,835,000 will be required	2,835,000
\$19,780,000 refunding bonds due in annual installments of \$310,000 to \$1,475,000 through May 1, 2036; interest ranging from 2.63 to 5.00 percent	19,780,000
\$5,590,000 refunding bonds due in annual installments of \$585,000 to \$675,000 through May 1, 2025; interest ranging from 1.25 to 2.90 percent	<u>5,590,000</u>
Total bonded debt	<u>\$ 36,315,000</u>
\$500,000 installment purchase agreement due in annual installments of \$96,098 to \$103,979 through July 1, 2020; interest at 1.99 percent	<u>\$ 500,000</u>

Parchment School District

Notes to Financial Statements June 30, 2016

Note 7 - Long-term Debt (Continued)

Capital Leases - The School District has entered into a lease agreement as lessee for financing the purchase of copier equipment. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value are as follows:

<u>Years Ending June 30</u>	<u>Amount</u>
2017	\$ 11,189
Total	11,189
Less amount representing interest	<u>247</u>
Present value of net minimum lease payments	<u>\$ 10,942</u>

School Loan Revolving Fund - The School Loan Revolving Fund payable represents notes payable to the State of Michigan for loans made to the School District, as authorized by the 1963 State of Michigan Constitution, for the purpose of paying principal and interest on general obligation bonds of the School District issued for capital expenditures. Interest rates are to be annually determined by the State Administrative Board in accordance with Section 9 of Act No. 92 of the Public Acts of 2005, as amended. Interest rates went into effect beginning October 1, 2005 pursuant to Public Act 92. Interest, at a rate ranging from 3.340 percent to 3.432 percent, has been assessed for the year ended June 30, 2016. Repayment is required when the millage rate necessary to cover the annual bonded debt service falls below 7 mills. The School District is required to levy mills and repay to the State any excess of the amount levied over the bonded debt service requirements. As a result of the 2016 Series B refunding, the School District repaid \$4,818,303 and \$690,697 towards the School Loan Revolving Fund outstanding principal and accrued interest balances, respectively. The balance of outstanding principal and accrued interest is \$284,786 and \$1,852, respectively, at June 30, 2016.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 7 - Long-term Debt (Continued)

Advance and Current Refundings - During the year, the School District issued \$19,780,000 in Series A general obligation bonds with an average interest rate of 3.92 percent. The proceeds of these bonds were used to advance refund \$2,115,000 and \$19,260,000 of outstanding 2005 and 2007 refunding bonds, respectively, with average interest rates of 4.01 percent and 4.16 percent, respectively. The net proceeds of \$20,357,032 (after payment of \$194,321 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the School District's long-term obligations. The advance refunding reduced total debt service payments by approximately \$2,800,993, which represents an economic gain of approximately \$2,202,772.

During the current year, the School District also issued \$5,590,000 in general obligation Series B bonds with interest ranging from 1.25 to 2.90 percent. The proceeds of these bonds were used to advance refund \$5,509,000 of School Loan Revolving Fund principal and accrued interest with rates of approximately 3.40 percent. The refunded bonds were paid out to the loan funds in March 2016. As a result, the bonds are considered to be paid and liability for the bonds has been removed from the School District's long-term obligations.

Note 8 - Restricted Assets

The balances for the restricted asset accounts are as follows:

	Governmental Activities
Unspent QZAB proceeds	\$ 33,293
Debt Service Funds	192,003
General Fund - for debt service payments	<u>333,572</u>
Total restricted assets	<u>\$ 558,868</u>

Parchment School District

Notes to Financial Statements June 30, 2016

Note 9 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for health, general liability, and automobile and property damage claims and participates in the Michigan Association of School Boards - School Employers' Trust/School Employers' Group (risk pool) for claims relating to workers' compensation. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Note 10 - Michigan Public School Employees Retirement System

Plan Description - The School District participates in the Michigan Public School Employees Retirement System (MPERS or the "System"), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment healthcare benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees Retirement System issues a publicly available financial report that includes financial statements and required supplemental information for the pension and postemployment healthcare plans. That report is available on the web at <http://www.michigan.gov/orsschools>, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909.

Contributions - Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by state statute and may be amended only by action of the State Legislature. Under these provisions, each School District's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

The School District's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. Contribution rates are adjusted annually by the ORS.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

The range of rates are as follows:

School District

October 1, 2014 - September 30, 2015	18.76% - 23.07%
October 1, 2015 - June 30, 2016	14.56% - 18.95%

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions.

The School District's required and actual contributions to the plan for the year ended June 30, 2016 was \$2,289,306. The School District required and actual contributions include an allocation of \$618,235 revenue received from the State of Michigan, and remitted to the system, to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2016.

Benefits Provided - Benefit provisions of the defined benefit pension plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for non-duty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits, but with an actuarial reduction.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members who do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

Net Pension Liability, Deferrals, and Pension Expense - At June 30, 2016, the School District reported a liability of \$22,501,121 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2014, which used update procedures to roll forward the estimated liability to September 30, 2015. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2015, the School District's proportion was 0.092123 percent.

For the year ended June 30, 2016, the School District recognized pension expense of \$1,994,968, exclusive of payments to fund the MPSERS UAAL Stabilization Rate. At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows Resources
Difference between expected and actual experience	\$ -	\$ (74,530)
Changes of assumptions	554,025	-
Net difference between projected and actual earnings on pension plan assets	114,850	-
Changes in proportion and differences between the School District's contributions and proportionate share of contributions	347,611	(1,568)
The School District's contributions subsequent to the measurement date	1,788,194	-
Total	<u>\$ 2,804,680</u>	<u>\$ (76,098)</u>

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Amount
2017	\$ 156,282
2018	156,282
2019	126,234
2020	501,590
2021	-
Thereafter	-
Total	<u>\$ 940,388</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

Actuarial Assumptions - The total pension liability as of September 30, 2015 is based on the results of an actuarial valuation date of September 30, 2014 and rolled forward:

Actuarial cost method	Entry age normal cost actuarial cost method
Investment rate of return	7.00 to 8.00 percent, net of investment expenses based on the groups
Salary increases	3.50 - 12.3 percent, including wage inflation of 3.5 percent
Mortality basis	RP2000 Combined Healthy Mortality Table, adjusted for mortality improvements to 2025 using projection scale BB
Cost of living pension adjustments	3 percent annual noncompounded for MIP members

The actuarial assumptions used for the September 30, 2014 valuation were based on the results of an actuarial experience study for the period from October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

Discount Rate - The discount rate used to measure the total pension liability was 7.00-8.00 percent depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment Category	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity pools	28.0 %	5.9 %
Private equity pools	18.0	9.2
International equity pools	16.0	7.2
Fixed-income pools	10.5	0.9
Real estate and infrastructure pools	10.0	4.3
Real return, opportunistic, and absolute pool	15.5	6.0
Short-term investment pools	2.0	-
Total	100.0 %	

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the School District calculated using the discount rate of 7.00-8.00 percent. The following also reflects what the School District's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (6.0 - 7.0 percent) or 1.00 percentage point higher (8.0 - 9.0 percent) than the current rate:

<u>1.00 Percent Decrease (6.0 - 7.0 Percent)</u>	<u>Current Discount Rate (7.0 - 8.0 Percent)</u>	<u>1.00 Percent Increase (8.0 - 9.0 Percent)</u>
<u>\$ 29,009,713</u>	<u>\$ 22,501,121</u>	<u>\$ 17,014,111</u>

Pension Plan Fiduciary Net Position - Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report.

Payable to the Pension Plan - At June 30, 2016, the School District reported a payable of \$324,011 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2016.

Postemployment Benefits Other Than Pensions (OPEB) - Under the MPSERS act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. Retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits on a pay-as-you-go basis. Participating employers are required to contribute at that rate. The employer contribution rate ranged from 2.2 percent to 2.71 percent of covered payroll for the period from July 1, 2015 to September 30, 2015 and from 6.4 percent to 6.83 percent of covered payroll for the period from October 1, 2015 through June 30, 2016 dependent upon the employee's date of hire and plan election as noted above. Members can choose to contribute 3 percent of their covered payroll to the Retiree Healthcare Fund and keep this premium subsidy benefit or they can elect not to pay the 3 percent contribution and instead choose the Personal Healthcare Fund, which can be used to pay healthcare expenses in retirement. Members electing the Personal Healthcare Fund will be automatically enrolled in a 2 percent employee contribution into their 457 account as of their transition date and create a 2 percent employer match into the employee's 403B account.

Parchment School District

Notes to Financial Statements June 30, 2016

Note 10 - Michigan Public School Employees Retirement System (Continued)

The School District's required and actual contributions to the plan for retiree healthcare benefits for the years ended June 30, 2016, 2015, and 2014 were \$462,141, \$216,000, and \$665,000, respectively. In addition, a portion ranging from 35-100 percent of the the MPERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate is considered a contribution to the retiree healthcare plan.

Note 11 - State Aid Anticipation Notes

On August 20, 2015, the School District borrowed \$910,508 at 1.46 percent interest and \$682,492 at 1.08 percent interest in state aid anticipation notes. The notes, plus interest, are due August 22, 2016. The notes were repaid in full subsequent to June 30, 2016.

Note 12 - Subsequent Events

On August 22, 2016, the School District borrowed \$1,906,000 at 1.20 percent interest in state aid anticipation note. The note, plus interest, is due in August 2017.

Note 13 - Contingent Liabilities

The School District has been notified of possible property tax receipts received in excess of the proper amounts over a period of time from 1995 to 2006. While it is possible that the School District could be required to repay amounts up to approximately \$315,000, the actual amount it will be required to pay is not known and could be less than the maximum amount in the notification.

Note 14 - Upcoming Accounting Pronouncements

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments. This OPEB standard will require the School District to recognize on the face of the financial statements its proportionate share of the net OPEB liability related to its participation in the MPERS plan. The statement also enhances accountability and transparency through revised note disclosures and required supplemental information (RSI). The School District is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2018.
