

Gary Bishop

I started out as a student teacher in Parchment under Dixie Johnson. When a 6th grade teacher was unable to return the teaching after an accident, I replaced her. I never left Parchment and worked for the school district for over 30 years as a teacher, coach and building principal. What a great run it was. I also coached tennis and was honored as a coach with a trip to the U. S. Open tennis tournament in Flushing Meadows, NY to receive the [USTA's Starfish Award.](#)

Thank-you

to the whole school system.

Favorite Memory of Parchment:

Parchment has such diversity of students that support its system that working with professionals and students was a great experience.
